SAFER RETURN TOGETHER - ORDER C19-07Y - UPDATED

Greetings 375 Beale Occupants,

On December 29, 2021, the City and County of San Francisco Department of Public Health further updated Order No. C19-07y (Safer Return Together), which replaced the Order of the Health Officer, No. C19-07x (Stay Safer at Home), issued on May 20, 2021, in its entirety and will remain in effect, until rescinded, superseded, or amended in writing. For specific details, please visit the following link:

<https://www.sfdph.org/dph/alerts/files/C19-07-Safer-Return-Together-Health-Order.pdf>

Order No. C19-07y went into effect at 12:01 a.m. on December 30, 2021.

Per the December 29, 2021 San Francisco Department of Public Health Order No. C19-07y update:

GENERAL REQUIREMENTS:

FACE COVERINGS:

- Due to the current surge associated with the Omicron variant, exemptions to indoor universal mask requirement that allow removal of mask if 100 % of people present are Fully Vaccinated are temporarily suspended until February 1, 2022.
- Everyone, including people who are Up-to-Date on Vaccination (meaning they have completed their initial course of vaccination and are at least seven days after having received a Booster once eligible, must wear a Well-Fitted Mask in indoor public settings as described in the updated Order.

VACCINATIONS:

- Up-to-Date on Vaccination - "Up-to-Date on Vaccination" means i) two weeks after completing the full initial course of vaccination with a vaccine authorized to prevent COVID-19 by the FDA, including by way of an emergency use authorization, or by the World Health Organization (WHO) (also defined as being Fully Vaccinated) and ii) one week after receiving a Booster once a person is eligible for a Booster. Until a person is eligible for a Booster, they are considered Up-to-Date on Vaccination two weeks after completing their full initial series of vaccination.
- Businesses and governmental entities are generally encouraged to require Personnel and patrons to be Up-to-Date on Vaccination, meaning they have completed the full initial course of vaccination (also referred to as being Fully Vaccinated) and have received a Booster when they are eligible.
- Proof of Vaccination - Businesses and other entities are urged to require people to provide proof that they have completed their initial vaccination series (are Fully Vaccinated) before allowing people to remove their Well-Fitted Mask to the extent allowed in Appendix A, Section 5. For clarity, even if a Business or other entity does verify that people are Fully Vaccinated, people still must wear a Well-Fitted Mask unless otherwise exempted under the Order. And as provided in the Order, each Business that is required to confirm proof of completion of the full initial course of vaccination (Full Vaccination) is strongly urged to implement measures as soon as possible to require its patrons and staff (as distinct from Personnel) to be Up-to-Date on Vaccination, including requiring them to show proof of receipt of a Booster once they are eligible.

- Unless otherwise specified, the following are acceptable as proof of Full Vaccination: (i) the CDC vaccination card, which includes name of person vaccinated, type of vaccine provided, and date last dose administered, or similar documentation issued by another foreign governmental jurisdiction, (ii) a photo of a vaccination card as a separate document, (iii) a photo of the a vaccination card stored on a phone or electronic device, (iv) documentation of vaccination from a healthcare provider, (v) written self-attestation of vaccination signed (including an electronic signature) under penalty of perjury and containing the name of the person vaccinated, type of vaccine taken, and date of last dose administered, or (vi) a personal digital COVID-19 vaccine record issued by the State of California and available by going to myvaccinerecord.cdph.ca.gov or similar documentation issued by another State, local, or foreign governmental jurisdiction, or by an approved private company (a list of approved companies offering digital vaccine verification is available at www.sfdph.org/dph/alerts/files/vaccine-verification-sites.pdf)
- **PERSONNEL HEALTH SCREENING REQUIREMENTS:** Businesses and governmental entities must continue to develop and implement a process for screening Personnel for COVID-19 symptoms, but this requirement does not mean they must perform on-site screening of Personnel. Businesses and governmental entities should ask Personnel to evaluate their own symptoms before reporting to work. If Personnel have symptoms consistent with COVID-19, they should follow subsections 3. (d) and 3. (e).
- **VENTILATION GUIDANCE:** All Businesses and governmental entities with indoor operations are urged to review the Ventilation Guidelines and implement ventilation strategies for indoor operations as feasible.
- **SIGNAGE:** (<https://sf.gov/resource/2021/covid-19-outreach-toolkit>)
In addition to any signage otherwise required in this Order or any directives issued by the Health Officer for specific Business or other sectors, the following general signage requirements apply:
 - Signage for Patrons. All Businesses and governmental entities are required to conspicuously post signage reminding individuals of COVID-19 prevention best practices to reduce transmission: Get vaccinated; Stay home if sick, and talk to your doctor; Masks are required indoors; Maximize fresh air; and clean your hands.
 - Signage for Employees. All Businesses and governmental entities are required to post signs in employee break rooms or areas encouraging employees to get vaccinated and informing them how to obtain additional information.
- **MANDATORY REPORTING REQUIREMENTS:**
 - All businesses and governmental entities must continue to require that all personnel immediately alert the business or governmental entity if they test positive for COVID-19 and were present in the workplace within the 48 hours before onset of symptoms or within 48 hours of the date on which they were tested.
 - All businesses and governmental entities must continue to report to the San Francisco Department of Public Health when three or more personnel test positive for the virus that causes COVID-19 within a two-week period then the Business or governmental entity is required to call the San Francisco Department of Health at 628-217-6100 and immediately report the cluster of cases. Businesses and governmental entities must comply with all case investigation and contact tracing measures by County including providing any information requested.

For additional questions or concerns, please contact Building Management at (628) 220-2080 or via e-mail at 375BealeSt@cushwake.com. We thank you for your attention to this matter.
