

BUILDING NOTICE

MARCH 21, 2022

SAFER RETURN TOGETHER - ORDER C19-07Y - UPDATED

Greetings 375 Beale Occupants,

On March 10, 2022, the City and County of San Francisco Department of Public Health further updated Order No. C19-07y (Safer Return Together), which replaced the Order of the Health Officer, No. C19-07x (Stay Safer at Home), issued on May 20, 2021, in its entirety and will remain in effect, until rescinded, superseded, or amended in writing. For specific details, please visit the following link:

<https://www.sfdph.org/dph/alerts/files/C19-07-Safer-Return-Together-Health-Order.pdf>

Order No. C19-07y (updated) went into effect at 12:01 a.m. on March 11, 2022.

Per the March 10, 2022, San Francisco Department of Public Health Order No. C19-07y update:

FACE COVERINGS:

- Businesses and governmental entities must follow the requirements for masking listed in this Order and Appendix A to this Order and may, but are not required by this Order, to require masks be worn indoors.
- Businesses and other entities subject to the Order are encouraged to provide a Well-Fitted Mask at no cost to people (patrons and Personnel) who do not have one upon entry inside the facility.
- **Effective March 23, 2022, Well-Fitted Masks will no longer be required inside all common areas of the Bay Area Metro Center (“the building”) however Well-Fitted Masks are strongly recommended, especially for unvaccinated people. Well-Fitted Masks are the safest choice in indoor public settings and in crowded or poorly ventilated spaces. People can choose to wear Well-Fitted Masks around others whether it’s required or not for added protection. People should respect others’ choices around their health.**

VACCINATIONS:

- Individuals are still strongly urged to be Up-to-Date on Vaccination, meaning, as further provided in Section 1, that they are Vaccinated with a Complete Initial Series and, as soon as they are Booster-Eligible, receive their Booster. In particular, people at risk for severe illness with COVID-19—such as unvaccinated older adults and unvaccinated individuals with health risks—and members of their Household, are urged to be Up-to-Date on Vaccination, including receiving a Booster, as soon as they can.
- For those who are not yet Up-to-Date on Vaccination, making informed choices about the risk of different activities, wearing a Well-Fitted Mask indoors, testing before gathering indoors, or choosing outdoor activities as much as possible are also ways to prevent the risk of COVID-19 transmission. Individuals who are Up-to-Date on Vaccination have the best protection against COVID-19.

PERSONNEL HEALTH SCREENING REQUIREMENTS:

- Businesses and governmental entities should develop and implement a process for screening Personnel for COVID-19 symptoms, but this requirement does not mean they must perform on-site screening of

Personnel.

- Businesses and governmental entities should ask Personnel to evaluate their own symptoms before reporting to work. If Personnel have symptoms consistent with COVID-19, they should follow subsections 3(d) and 3(e) of the Order. Businesses and governmental entities may be required to conduct such screenings for Personnel under Cal/OSHA's regulations. Businesses and other entities must adhere to applicable Cal/OSHA regulations relating to COVID-19 health and safety measures in the workplace and should frequently check for updates to those regulations such as by checking online at www.dir.ca.gov/dosh/coronavirus/covid19faqs.html.
- **Effective March 23, 2022 the building will no longer require the completion of a health screening questionnaire for all visitors and outside contractors.**

VENTILATION GUIDANCE:

- All Businesses and governmental entities with indoor operations are urged to review the Ventilation Guidelines and implement ventilation strategies for indoor operations as feasible. Nothing in this subsection limits any ventilation requirements that apply to particular settings under federal, state, or local law.

SIGNAGE:

- All Businesses and governmental entities are encouraged to conspicuously post signage reminding individuals of the following COVID-19 prevention best practices to reduce transmission: Get vaccinated and boosted; Stay home if sick; Wear a mask indoors if you are unvaccinated; and clean your hands.
- Businesses and governmental entities are also encouraged to include in signage any custom requirements the business or entity requires of its patrons or Personnel regarding testing, vaccination, and masking. Sample signage is available online at <https://sf.gov/outreach-toolkit-coronavirus-covid-19>.

MANDATORY REPORTING REQUIREMENTS:

- Consistent with Cal/OSHA regulations, Businesses and governmental entities must require that all Personnel immediately alert the Business or governmental entity if they test positive for COVID-19 and were present in the workplace either (1) within 48 hours before onset of symptoms or within 10 days after onset of symptoms if they were symptomatic; or (2) within 48 hours before the date on which they were tested or within 10 days after the date on which they were tested if they were asymptomatic.
- If a Business or governmental entity is concerned about a workplace outbreak among Personnel, it may get additional information www.sfcddcp.org/covid19-positive-workplace.
- Businesses and governmental entities must also comply with all case investigation and contact tracing measures directed by DPH including providing any information requested within the timeframe provided by DPH, instructing Personnel to follow isolation and quarantine protocols specified by CDPH and Cal/OSHA and any additional protocols specified by DPH, and excluding positive cases and unvaccinated close contacts from the workplace during these isolation and quarantine periods.
- For specific reporting requirements within the building, please contact the Building Management Team at 628-220-2080.

For additional questions or concerns, please contact Building Management at (628) 220-2080 or via e-mail at 375BealeSt@cushwake.com. We thank you for your attention to this matter.
